Summary

Product Designer based in Vancouver with a Graphic Design background and originally from Thailand. Experienced in UX/UI design, user research, wireframing, prototyping, interaction design, and design systems for web and mobile applications. Skilled at translating user needs and business goals into intuitive, accessible, and visually engaging digital products. Proficient in collaborating with cross-functional teams throughout the product development lifecycle, from discovery and ideation to testing, iteration, and developer handoff. Passionate about creating user-centered experiences that improve usability and deliver meaningful impact.

Work Experience

UX/UI Designer & UX Researcher

Apr 2026 – Aug 2026

First Nations Health Authority — Vancouver, BC

- Conducted UX research, created personas and user journeys, and led usability testing to inform design decisions.
- Designed responsive wireframes, high-fidelity prototypes, and a design system in Figma for the provider directory, search and filtering, tutorial, and admin portal.
- Collaborated with developers and stakeholders to refine the user experience and deliver an accessible, user-centered solution.

UX/UI Designer

Jan 2026 – Mar 2026

Tandam Impact Collective — Vancouver, BC

- Designed wireframes, user flows, design system components, and high-fidelity prototypes for BabySteps, an AR prenatal bonding application based on a night-sky storytelling concept.
- Translated user experience concepts into clear UI designs and interactive prototypes.
- Collaborated closely with developers to deliver design specifications and visual assets for implementation.

Lead UX/UI Designer

Jan 2024 – Apr 2024

Red Thread Innovations — Oakville, ON

- Led UI/UX design for a virtual healthcare platform addressing language barriers for newcomers and immigrants in Canada, helping bridge communication gaps in care.
- Conducted user research and interviews with newcomers and healthcare providers to identify key communication challenges for non-native English speakers.
- Synthesized research insights to define user needs across pre-visit, during-visit, and post-visit healthcare interactions.
- Designed wireframes, user flows, design system components, and high-fidelity prototypes for an AI-assisted platform.
- Developed AI-driven features to improve language accessibility, reduce misunderstandings, and increase patient confidence in navigating healthcare services.

Graphic Designer

May 2021 - January 2022 | May 2022 - Nov 2022

IceCarats — Vancouver, BC

- Designed advertising email newsletters and edited short promotional videos to promote products and drive increased sales during key seasonal campaigns, including Christmas, New Year, Valentine's Day, and Black Friday.
- Structured and designed product information sections and detail pages for the company website, ensuring clear visual hierarchy and cohesive layout, including photo editing and mockup presentation to support conversion.

Education

Master of Digital Media
Centre for Digital Media
Sep 2025 – Present
